## Testimonials

---

Hetman Photo Recovery was exactly what I needed to recover my photos of a corrupt compact flash card. All the images were recovered perfectly unlike with many other software products I tried. Highly recommended!

**Scott Bradley**

I take this mail to thank you very much for providing this kind of good software to recover my data. I really appreciate your software and the valuable service extended to me by your people. Very effective. I have no hesitation in recommending Hetman Uneraser.

**Carl Ledlie**

I, being unfamiliar with a new digital camera, inadvertently deleted all of many photographs contained in the flash memory. Thanks to you and your company's diligence and persistence, I now have most all of these photographs restored and on CD.

**Jason Brown**
